

PROCESS STEP 4: Create an itinerary

An itinerary is a specific plan as to where you are going to go once you arrive at your country.

BE SPECIFIC: instead of : going to eat lunch, NAME a REAL RESTAURANT that you can find there (and if there is a picture provided, save it for your photo album!!)

Things that must be included in your itinerary: **REMEMBER, AS YOU DO RESEARCH, YOU SHOULD SAVE PICTURES ALONG THE WAY** for your photo album

A good resource with already made itineraries/ real places to go/see... FODORS.COM

[CHECK OUT THIS EXAMPLE](#) of Mexico City... see all the places to go, things to do, hotels to stay...

Choose (at least) 2 cities in which to visit. One city should be the capital.

Name of hotel/s you will stay at (for real) list at least 2

Name of restaurants you will eat at (for real) list at least 4

Find and highlight 5 “must sees” in the country

What will you do for entertainment? (for real)

Visit a historical site

Do something “cultural” / a cultural practice you “saw” typical for the country

Attend a Sporting event.

The itinerary is just a basic outline / list where you plan on going, what you plan on doing on your trip.

You don't have to go into detail on the itinerary, you will go into detail later in your journal, in your photo album, and when you tell us about/present your trip:

here is an example itinerary:
