

**PROCESS 6:** create a journal of your trip

A journal is like a diary, where you write entries.

You will write 5 entries in a journal you create on **PENZU**

You will link or export your journal to your keynote presentation

You will explain in detail about 5 things you did, saw, attended (refer to itinerary). Your journals should show creative writing as well as be true to the event.

For example, you can journal about the bullfight you saw. Some of this will be creative, but it should incorporate what you would really see at a bullfight / what happened.
